POLITICAL TALKS AT BALLSTON, VA.

Citizens' Committee Holds Big Mass Meeting.

The citizens' committee of Alexandria County held a meeting at Ballston, Va., last night in the Knights of Pythias Hall. An enthusiastic audience gathered from all parts of the county to hear the indorsement of candidates and the disndorsement of candidates and the dis-cussion of local politics.

W. W. Wright discussed the land ques-

tion and criticised the present county officers for withholding funds that were officers for withholding funds that were urgently needed to keep the schools of the county open. Frank B. Lyon contrasted the present fine condition of that department of county affairs that is controlled by the county affairs that is controlled by the county attorney, Crandal Mackey, with the condition that prevailed in former days under the saloon system. It would be a crime, he said, to return, even in the slightest degree, to the methods of former days. His references to Crandal Mackey and his eminent fitness for the office were met with enthusiastic applause.

for the office were met with enthusiastic applause. Several candidates for local offices were present. Among them were George H. Rucker, county clerk; Harry Thomas, deputy county clerk, who is supported by the citizens against Mr. Rucker; Curtis B. Gram and W. H. Duncan, who are candidates for the office of commissioner of revenues. D. B. Wheeler presided. The earnestness of the speakers and the close attention of the large audience went far to indicate that all citizens of the county are now aroused to a full sense of their public duties, and that a closely contested election may be looked for in November.

MAN WHO REFUSES TO WINK INHUMAN

Capital Doesn't Need Female Mashers, Says Inspector.

It is the opinion of Harry L. Gess ford, police inspector, stationed at the District Building, that there are as many young women as men mashers strolling the streets of the city.

young women as men mashers strolling the streets of the city.

"Conditions are not so bad here as in other cities," said the inspector yesterday, "but there are always a good many flip young men and women on the streets. I don't think that the men ough! to get all the blame, as there are many women mashers in Washington.

"I am not in a position to say what will be done by the superintendent, but I hardly think he will resort to the plan of employing young girls to decay mashers, as has been done in some cities. Conditions are not so serious in the Capital as to warrant much consideration from the police department. Personally, I don't think much of the plan. Some of the girls employed are so attractive that a man wouldn't be human who could pass by such a fairy creature without tipping her a wink."

HARMON ASSAILS TAFT ON TARIFF

Says Executive Erred When He Vetoed Bills.

Boston, Sept. 9 .- Gov. Judson Harmon of Ohio, in an address before the Boston Democratic clubs to-night, scored Presi-dent Taft for his attitude toward revision of the tariff. He declared that the President had been weefully and wrong-fuly advised or he would not have vetoed the bills passed at the special

"His position is simply that those who, "His position is simply that those who, by trickery of tariff making, have apparently secured a license to impose expositant prices on the American people shall go on doing it in spile of what Congress may do," said the governor, "until five men who are not responsible to the people shall advise him how much these taxes ought to be reduced and how to do it gelentifically.

but he fears these bills may have cut them too much."
"Not content with calling the majority

"Not content with calling the majority in Congress unscientific, incompetent, and ignorant." continued Gov. Harmon, "though in his vetoes he did so in parliamentary phrase, the President now, in public speeches, charges them with insulicerity, employing the ruder language of the stump. He says they were "play-ling politics."

"Ind our friends in Congress take heart." It was too much for him, and

ine politica."

"Lot our friends in Congress take heart, for if what they have done is 'playing politics,' the people will cry, 'Go on with the game. The tariff never will be taken out of politics, so long as it is to be prostituted for private gain and those who get or wish to get the gain can control the organization of one of the great parties."

FLEES TO ESCAPE

TWENTY INJURED IN TROLLEY CRASH

Continued from Page One.

was too close upon the disabled car to bring his charge to a full stop in time to avert the accident.

Paul E. Barden, an employe of the Springman farm at Benning, D. C., who was standing on the rear platform of the disabled car, when he saw the second car course in sight count for curve and car come in sight around the curve, gave a version of the accident which is cor-

a version of the accident which is cor-roborated by the crews of both cars.

"I realized that an accident was in-evitable," said Mr. Barden, "and started to jump. I saw the motorman of the oncoming car applying the brakes and heard the creaking of the fast-moving car as it slackened under the restraint of the brakes. As I stepped off the platform, every one in the car seemed to apprehend the danger, and made for the front door, with the exception of one old man. He sat in a seat in the rear end of the first car, and was partially thrown through a window. I thought he was killed, but later discovered that he excaped without a

"Conductor Lomax ran from where he was standing in the front part of the standing car and grabbed a red lantern. This be swung to and fro in an effort to give a signal of danger to the motorman of the oncoming car. He was still waving the lantern when I leaped from the train."

Operate on Victim.

When the ambulance reached Caualty Hospital with the injured men, the en-tire staff at the institution was called to the operating room. Perkins, who was worst injured, was immediately the worst injures, was immediately placed upon the operating table. Dr. H. W. Jaeser performed the operation, with the assistance of a large staff. Dr. C. C. Craft, resident physician, and Drs. William C. Reeves and Albert Tibbets, visiting physicians, attended to the other patients.

ing physicians, attended to the other patients.

Dupont and Rogers, after having their wounds dressed and resting from the shock, left the hospital. While Posey, the conductor, was not seriously injured, it was decided that he should remain at the institution for the night.

Schafer seemed to be painfully injured, although no wounds or broken bones could be discovered. He lay on a cot during the evening groaning and apparently suffering great pain. Although his injuries are painful, it is not believed by the physicians that they will prove fatal. Perkins was on the operating table for more than an hour. He was suffering sreat pain from his back, which brought forth continuous groans. After being removed to a private room, he became quiet and said that the pain was greatly elleviated. Because of Perkins' age, it is probable his injuries will never.
